# ASTA TONDA

The expression of lightness and reduction are the main ideas behind the Asta Tonda series. Reduction is often associated with rejection, but this is not the case here. Instead, the deeper you look at the details, the more you see the sophistication and cleverness of the material arrangement and design. The ways in which individual parts come together is also a form of art that communicates an object's value. Ultimately, they tell the story of a fulfilling, meditative stillness.
