USAGE INSTRUCTIONS

Cartapesta is crafted using natural granite and papier-mâché, sealed with resin for durability. To maintain its quality and appearance, please follow these guidelines:

Cleaning: Use a soft, dry, or slightly damp cloth for cleaning. Avoid harsh chemicals, as they may damage the resin coating.

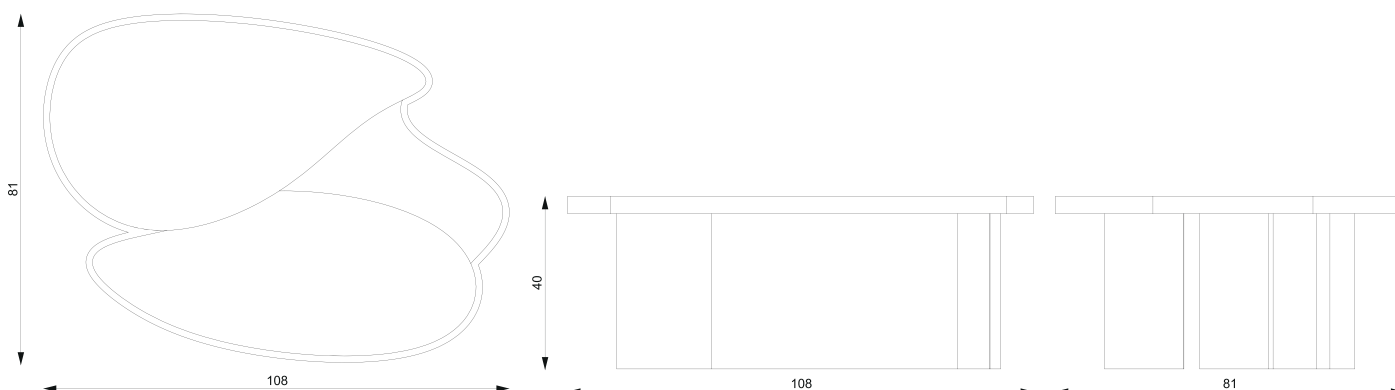

Handling: Lift and move Cartapesta with care, holding it by the sturdy parts of the structure.

Natural Stone Care:

Avoid acidic or abrasive cleaners (such as vinegar, lemon juice, or bleach), as they can damage the granite surface. Clean with a mild soap and water solution, using a soft cloth or sponge. Wipe up spills promptly, especially those containing oils, wine, or citrus, to prevent potential staining. Do not place hot objects directly on the stone surface—use coasters or pads to protect it. If needed, periodically apply a stone-safe sealant to maintain the granite's resistance to stains and moisture.
